

# LEHIGH LEARNING ACADEMY

## Our Vision:

*Lehigh Learning Academy envisions a world where all students, regardless of their abilities and circumstances, can learn, grow and successfully transition into adulthood.*

*Lehigh Learning Academy seeks to provide a supportive academic, therapeutic and social environment where students can achieve their goals and reach their fullest potential.*

## Blended Learning Program

The Blended Learning Program is designed to meet the needs of students who are: gainfully employed (or soon to be), have childcare responsibilities, suffer from serious health issues, are significantly off track in their graduation plans, or struggle in a more restrictive or crowded setting as is the case with many alternative schools today.

Utilizing a combination of Academic, Vocational, and Therapeutic programs, Blended Learning offers a highly supportive course of study that is customized to each individual student based on his or her specific needs and abilities. The goal of the program is to provide maximum flexibility for the student, their families, and the sending districts/agencies. The Blended Learning Program provides another avenue to graduation for the self-motivated student and a further layer of support and assistance for those who have been unsuccessful elsewhere.

**Lehigh Learning Academy's Blended Learning Program accepts male and female students grades 9-12, referred by surrounding school districts, juvenile courts and children and youth agencies. Private tuition rates are also available.**

### How it works...

At the time of the intake, our staff work with the student, the family, and the treatments teams to determine the needs of the student and select the most appropriate program options. Academic coursework is primarily delivered through *EdGenuity* online learning software and all instruction is delivered by certified content-area teachers. Core academic classes are supplemented with transitional and vocationally-oriented projects every semester. Case managers oversee student progress and continuously track performance in all areas.

The following program options can be incorporated into the student's course of study and can be further customized by our staff. Again, flexibility is the main goal.

### Academic Program Options

- On-Site Cyber Instruction
- In-Home Cyber Instruction
- Reduced Day / Partial Week
- IEP and Transition Support
- In-Home/Local Academic Support Sessions

### Vocational Program Options

- Career Explorations / Job Readiness Course
- Partial-Week Work Study
- Full-Time Work Study
- Half-Day Vocational-Technical Programs
- Job Site Visits and Vocational Support Sessions

### Therapeutic Program Options

- Individual Case Management and Counseling
- On-Site Group Therapy Sessions
- Level System Behavior Management System
- Behavior Modification Curriculum
- In-Home/Local Therapeutic Support Sessions
